By Subcommittee on Laboratory Animal Nutrition, Committee on Animal Nutrition, Board on Agriculture, National Research Council, National Academy of Sciences

National Academies Press. Paperback. Book Condition: new. BRAND NEW, Nutrient Requirements of Laboratory Animals (4th Revised edition), Subcommittee on Laboratory Animal Nutrition, Committee on Animal Nutrition, Board on Agriculture, National Research Council, National Academy of Sciences, In the years since the third edition of this indispensable reference was published, a great deal has been learned about the nutritional requirements of common laboratory species: rat, mouse, guinea pig, hamster, gerbil, and vole. The fourth revised edition presents the current expert understanding of the lipid, carbohydrate, protein, mineral, vitamin, and other nutritional needs of these animals. The extensive use of tables provides easy access to a wealth of comprehensive data and resource information. The volume also provides an expanded background discussion of general dietary considerations. In addition to a more user-friendly organization, new features in this edition include: a significantly expanded section on dietary requirements for rats, reporting substantial new findings; a new section on nutrients that are not required but that may produce beneficial results; new information on growth and reproductive performance among the most commonly used strains of rats and mice and on several hamster species; an expanded discussion of diet formulation and preparation - including sample diets of both purified...
