Prospects and Problems of Brick industry: With Reference To Tripura

By Pallab Kanti Ghoshal

Mittal Publications, New Delhi, 2008. N.A. Book Condition: New. 23 cms. xvi, 167 p. : ill., map ,Manufacturing of clay bricks is among the oldest industrial activities in the history of the human civilization. Brick remains one of the most important building materials and continues to be the mainstay of construction activities. No alternatives of brick have, in fact, yet been able to threaten the existence of burnt clay bricks seriously on technical as well as commercial ground. The pioneering volume is the first comprehensive effort to study different economic and non-economic aspects of Brick Industry. This book is the outcome of an in-depth study of the organizational and administrative setup, capital involved, marketing and manufacturing techniques followed in the industry. This book provides a detailed financial analysis including ratio analysis, break even analysis production trend and cost analysis, observable fact on demand and supply, etc. A detailed study on the work force engaged in the industry is also incorporated in the book. The present threats before the industry have been discussed cogently in this volume. The volume is illustrated not only with suggestions for best possible solutions of the constraints of the industry but also for a sustainable development...
