The 9th Eurographics workshop on Animation and Simulation was held on August 31st - September 1st, 1998, at INESC Lisbon. The workshop was chaired by Bruno Arnaldi (IRISA Rennes, France) and Gerard Hégon (Ecole des Mines de Nantes, France). The local organizer Mario Rui Gomes (INESC Lisbon, Portugal) notably contributed to provide a harmonious environment. The main theme of this seventh workshop was centered on Virtual Reality versus Animation and Simulation: from real time animation simulation to physical perception of virtual environments. About twenty participants attended the workshop, representing eight countries: France, Spain, Austria, Switzerland, Ireland, Portugal, Germany and USA. The Program Committee selected eight papers among submitted papers. Thirteen minutes of presentation and fifteen minutes discussion time per paper was also planned; this approach succeeded in creating a stimulating exchange atmosphere during the two days. Four sessions have been organized : Applications : in this session, two papers were presented, the first one deals with the use of simulation in natural disasters prevention while the second one concerns dynamic light sources for radiosity environments natural simulation : the first paper of this...
